Permit Services

Your drivers have places to go, and getting there is becoming more complicated every day. Between detours, fuel-ups and breakdowns, the road is a challenging place to earn a living. Add the truck rules and regulations that change from state to state, and your fleet can have real problems if you aren't prepared.

Fleet One® Permit Services lets you use your Fleet One account to purchase the necessary temporary permits your drivers need including:

- Trip Permits
- Fuel Permits
- O/O (Oversize/Overweight) Permits

Fleet One Makes Sense For Your Business!

Flexible. Fuel Permits. Trip Permits. Over-dimensional Permits. Your drivers can get the temporary permits they need for their next trip, whether it's just down the road or over the road. You can buy these permits whenever you need them. We give you two simple ways to obtain temporary permits:

- You can apply for permits online. Just go to www.FleetOnePermits.com and follow the simple instructions. We'll fax your permits to you as soon as possible.

- Call toll-free 877.251.7639 and ask for a Permit Agreement and Application. We'll fax them to you right away. Then fill out the forms and fax them back to us at 877.371.7587.

Affordable. You'll only pay for the permits you need, avoiding unneccessary purchases. Fines are serious business. And without careful planning, they can add up quickly. Our program helps you avoid them — and save money.

A Compliance Tool. Rules change from state to state, and what's legal in one state may draw fines across the border. Fleet One Permit Services can help you stay in compliance when it comes to fuel, trip and oversize/overweight permits, no matter where the road takes your drivers.

World-Class Service. Unparalleled service comes standard at Fleet One. We have experienced agents dedicated exclusively to Permit Services, so you can count on a prompt response to your requests. Like all Fleet One products, Permit Services is continuously supported by our Customer Care Department 24 hours a day, 7 days a week, every week of the year.

Fleet One. Just drive ... We'll take care of the rest!
